3 General Information on Data Processing

1. Scope of personal data processing

We process the personal data of our Users only insofar as it is necessary for the provision of a functional website as well as for the provision of our content and services. The regular processing of our Users' personal data only takes place with the consent of the User. There is an exception in cases in which obtaining prior consent is not possible for actual reasons and the data processing is permitted by legal provisions.

“Personal data” is all information that refers to an identified or identifiable natural person (hereinafter the **“Person Affected or User”**); a natural person is deemed identifiable if they can be identified, directly or indirectly, especially through the allocation of an identifier such as a name, an identification number, location data, an online identifier or one or several characteristics which are an expression of the physical, physiological, genetic, psychological, economic, cultural or social identity of this natural person.

2. Legal basis for personal data processing

Insofar as we obtain the consent of the Person Affected for the processing of personal data, Art. 6 para. 1 lit. a of the General Data Protection Regulation (GDPR) serves as the legal basis.

For personal data processing that is required in order to fulfil a contract in which the Person Affected is a contracting party, Art. 6 para. 1 lit. b GDPR serves as the legal basis. This also applies for processing that is required for the execution of pre-contractual measures.

Insofar as personal data processing is required to fulfil a legal obligation to which the company is subject, Art. 6 para. 1 lit. c GDPR serves as the legal basis.

In the event that the vital interests of the Person Affected or of another natural person render the processing of personal data necessary, Art. 6 para. 1 lit. d GDPR serves as the legal basis.

If the processing is necessary for the protection of a legitimate interest of our company or of a third party and the first-mentioned interest does not outweigh the interests, basic rights and basic freedoms of the Person Affected, Art. 6 para. 1 lit. f GDPR serves as the legal basis for processing.

3. Deletion of data and storage period

The personal data of the Person Affected is deleted or blocked as soon as the purpose of the storage ceases to apply. Storage may also take place if this is provided for in European or national legislation through EU directives, laws or other regulations to which the person responsible is subject. The data is also deleted or blocked if a storage period stipulated in the standards mentioned expires unless it is necessary for the data to be stored for longer for the conclusion of a contract or the fulfilment of a contract.

4 Provision of the website and generation of server log files

Every time you visit our website, our system automatically collects data and information from the computer system of the data processor that called up the site. The following data is collected:

- (1) The User's IP address
- (2) Date and time of access
- (3) Address of the page visited
- (4) Information on the browser type and version used

The data is also stored in our system's log files. This data is not stored with other User personal data.

The temporary storage of the IP address by the system is necessary to facilitate the delivery of the website to the User's computer. For this purpose, the IP address of the User must remain stored for the duration of the session.

Storage in log files takes place in order to ensure the proper functioning of the website. Furthermore, the data serves to optimise the website and ensure the security of our IT systems. The data is not analysed for marketing purposes in connection with this.

In accordance with Art. 6 para. 1 lit. f GDPR, these purposes also form our legitimate interest.

The data is deleted as soon as it is no longer required to fulfil the purpose of its collection. Long-term storage is possible. In this case, the IP addresses of Users are deleted or distorted so that allocation of the client visiting the page is no longer possible.

The collection of data for the provision of the website and the storage of data in log files is absolutely necessary for the operation of the website. Therefore, the User does not have the possibility to object.

5 Cookies

Our website uses cookies. Cookies are text files that are stored in the Internet browser or by the Internet browser on the User's computer system. If the User visits a website, a cookie can be stored on the User's operating system. This cookie contains a characteristic string of symbols that facilitates the clear identification of the browser when the website is visited again.

We use cookies in order for our website to be more User-friendly. Some elements of our website require that the browser visiting the site can also be identified after leaving the page.

The following data is stored and transferred in the cookies:

- (1) Language settings
- (2) Items in a basket
- (3) Log-in information

The purpose of the use of technically necessary cookies is to simplify the use of the website for the User. Some of the functions of our website cannot be provided without the use of cookies. For these functions, it is necessary that the browser can also be recognised again after leaving the page.

We require cookies for the following applications:

- (1) Basket in the online shop
- (2) Adoption of language settings
- (3) Registration with myBOGE

The User data collected by the cookies that are technically necessary is not used to generate User profiles.

In accordance with Art. 6 para. 1 lit. f GDPR, these purposes also form our legitimate interest in the processing of personal data.

Cookies are stored on the User's computer and transferred from there to our website. Therefore, as a User, you also have full control over the use of cookies. You can also prevent or limit the installation of cookies using the corresponding settings in your Internet browser. You can also delete cookies that have already been stored at any time. The steps and measures required for this depends on the specific Internet browser you use. If you have any questions, please use the help function or documentation provided by your Internet browser or contact the manufacturer or support service.

If cookies are deactivated for our website, it is possible that not all of the functions of the website may be used in full.

When you close your Internet browser, these session cookies are deleted.

6 Analysis by wiredminds

Our website uses a counting pixel technology provided by wiredminds GmbH (www.wiredminds.de) to analyze visitor behavior. If necessary, data is collected, processed and stored, from which user profiles are created under a pseudonym. Wherever possible and reasonable, these usage profiles are completely anonymized. Cookies can be used for this purpose. Cookies are small text files that are stored in the visitor's Internet browser and serve to recognize the Internet browser. The collected data, which may also contain personal data, will be transmitted to wiredminds or collected directly by wiredminds. wiredminds may use information that is left by visiting the websites to create anonymized usage profiles. The data obtained without explicit consent of the affected person will not be used to personally identify the visitor of this website and will not be merged with personal data of the bearer of the pseudonym. Whenever IP addresses are recorded, their immediate anonymization takes place by deleting the last number block.

7 Web analysis by Matomo (formerly PIWIK)

We use the open source software tool Matomo (formerly PIWIK) to analyse our Users' surfing behaviour on our website. The software places a cookie on the User's computer (see above for cookies). When individual pages of our website are accessed, the following data is stored:

- The called up web page
- Duration of stay on the website
- Name of the provider, browser used, plugins/add-ons installed in the browser (e.g. Flash, PDF-Reader, Shockwave, Java, Silverlight or QuickTime)
- Name of the operating system and resolution
- Name of the requesting domain
- Date and time of access
- Used search engines
- Name of the downloaded files
- The bounce rate
- The IP address of the User's calling system (anonymized to two blocks, e.g. 192.168.x.x)

Here, the software runs solely on the servers of our website. The Users' personal data is only stored there. The data is not passed on to third parties.

The software is set so that the IP addresses are not completely stored, but 2 bytes of the IP address are masked (e.g.: 192.168.xxx.xxx). This way, it's no longer possible to assign the shortened IP address to the calling computer.

The processing of Users' personal data enables us to analyse our Users' surfing behaviour. By evaluating the obtained data, we are able to compile information about the use of our website's individual components. This helps us to continuously improve our website and its User-friendliness. For these purposes, processing the data in accordance with Section 6 par. 1 lit. f GDPR is also in our legitimate interest. By anonymising the IP address, the Users' interest in protecting their personal data is sufficiently taken into account. The data will be deleted as soon as it is no longer needed for our recording purposes.

Cookies are stored on the User's computer and transmitted to our site from there. Therefore, you as a User also have full control over the use of cookies. You can deactivate or restrict the transmission of cookies by changing the settings in your Internet browser. Cookies that have already been stored can be deleted at any time. This can also be done automatically. When cookies are deactivated for our website, it may no longer be possible to use all website functions fully.

We offer the Users of our website the possibility of an opt-out from the analysis procedure. For this, you must follow the corresponding link in the imprint, or you can use the option in the appearing popup window. This way, another cookie is placed on your system that signals to our system not to store the User's data. When the User deletes the corresponding cookie from his own system in the meantime, he will have to set the opt-out cookie again.

More information about the Matomo software's privacy settings can be found at the following link: <https://matomo.org/docs/privacy/>.

8 Google Maps

We use Google Maps on our website to display our location and to generate a description of the journey to this location. This is a service provided by Google LLC, 1600 Amphitheatre Parkway, Mountain View, CA 94043 USA, hereinafter referred to only as "Google".

By way of the EU-US Privacy Shield certification,

<https://www.privacyshield.gov/participant?id=a2zt000000001L5AAI&status=Active>

Google guarantees that the EU data protection regulations are also observed when data is processed in the USA.

In order to display specific fonts on our website, a connection to the Google server in the USA is established when our website is called up.

If you use the Google Maps component integrated on our website, Google stores a cookie on your end device via your Internet browser. In order to display our location and generate a description of the journey, your User settings and data are processed. We cannot exclude the possibility that Google uses servers in the USA.

The legal basis is Art. 6 para. 1 lit. f GDPR. Our legitimate interest lies in the optimisation of the functionality of our website.

Google can determine from which website your enquiry was sent and to which IP address the description of the journey is sent via the connection established in the manner described previously.

If you have not agreed to this processing, you have the option to prevent the installation of cookies using the corresponding settings in your Internet browser. Details on this subject can be found in the following under the point "Cookies".

Furthermore, the use of Google Maps as well as the information acquired using Google Maps takes place in accordance with [Google's Terms of Use https://policies.google.com/terms?gl=DE&hl=de](https://policies.google.com/terms?gl=DE&hl=de) and the [Google Maps General Terms and Conditions https://www.google.com/intl/de_de/help/terms_maps.html](https://www.google.com/intl/de_de/help/terms_maps.html).

In order to display specific fonts on our website, a connection to the Google server in the USA is established when our website is called up.

The legal basis is Art. 6 para. 1 lit. f GDPR. Our legitimate interest lies in the optimisation and the cost-effective operation of our website.

Google can determine from which website your enquiry was sent and to which IP address the display of fonts is to be transmitted via the connection established in the manner described previously.

10 Google Adwords

We use the advertising component Google AdWords and thereby so-called conversion tracking on our website. This is a service provided by Google.

We use conversion tracking for the targeted advertising of our products. The legal basis is Art. 6 para. 1 lit. f GDPR. Our legitimate interest lies in the analysis, optimisation and cost-effective operation of our website.

If you click on an advertisement that is operated by Google, a cookie is stored on your end device by the conversion tracking that we use. These so-called conversion cookies become invalid after 30 days and do not serve to identify you personally.

If the cookie is still valid and you are searching for a specific page of our website, we and Google can identify that you have clicked on one of our advertisements placed by Google and that you have subsequently been forwarded to our website.

Using the information collected in this manner, Google sends us statistics regarding your visit to our website. Furthermore, this is how we obtain information on the number of Users that have clicked on our advertisement(s) as well as the pages of our website that are visited subsequently. Neither we nor third parties that also use Google AdWords are able to identify you through this process.

If you have not agreed to this processing, you have the option to prevent the installation of cookies using the corresponding settings in your Internet browser. Details on this subject can be found in the following under the point "Cookies".

11 Online job applications / Publication of job advertisements

We offer you the opportunity to apply to our company via our website. In these digital applications, we collect and process your applicant and application data to carry out the application process.

The legal basis for this processing is Section 26 para. 1 sentence 1 of the German Federal Data Protection Act (BDSG) in conjunction with Art. 88 para. 1 GDPR.

If an employment contract is concluded after the application process, we shall store the data given by you in the application in your personnel file for the purposes of the conventional organisation and administration process - this of course takes place under consideration of further legal obligations.

The legal basis for this processing is also Section 26 para. 1 sentence 1 BDSG in conjunction with Art. 88 para. 1 GDPR.

If an application is rejected, we automatically delete the data transmitted to us six months after notification of the rejection. However, the data is not deleted if continued storage for up to four months or until the conclusion of a court procedure is required on the basis of legal provisions, for example, the burden of proof in accordance with the General Equal Treatment Act (AGG).

In this case, the legal basis is Art. 6 para. 1 lit. f GDPR and Section 24 para. 1 No. 2 BDSG. Our legitimate interest lies in legal defence or enforcement.

If you have expressly consented to your data being stored for longer, for example, to be included in an applicant or potential client database, the data shall be processed further on the basis of your consent. The legal basis is then Art. 6 para. 1 lit. a GDPR. However, you can of course revoke your consent at any time with effect for the future in accordance with Art. 7 para. 3 GDPR by informing us.

12 SSL encryption

For security reasons and to protect the transmission of confidential content, for example, the registration data that you send to us as the operator of the website, this website uses SSL encryption. You can recognise an encrypted connection by the address bar on your browser, which changes from "http://" to "https://", and the padlock symbol that appears in your browser bar. If SSL encryption is activated, the data that you transmit to us cannot be read by third parties.

13 Newsletter

If you register for our free newsletter, the data requested from you for this purpose, i.e. your email address and your name (optional), is transmitted to us. We require a valid email address for effective registration. To ensure legal registration and to verify that the registration has indeed been submitted by the owner of an email address, we use the "double opt-in" procedure. For this purpose, we log the newsletter order, the dispatch of a confirmation email and the entry of the answer thereby requested. No further data is collected. The data is exclusively used for the dispatch of the newsletter and is not transmitted to third parties.

The legal basis for this is Art. 6 para. 1 lit. a GDPR.

You may revoke your consent to receiving the newsletter at any time with effect for the future in accordance with Art. 7 para. 3 GDPR. You need only inform us of your revocation or click the unsubscribe link contained in each newsletter.
